

## Clarification to RFP 6/18/2010

I want to remind you that it is a statutory requirement (Act 128, Section 6) that the consultant selected to do the design must "have demonstrated experience in designing health care systems that have expanded coverage and contained costs". Please make sure that your proposal highlights your experience in these two areas.

We have created a website for all materials related to the RFP at <http://www.leg.state.vt.us/jfo/Healthcare%20Study%20Design.htm> I encourage you to monitor that resource on a regular basis as we will be posting documents there on a regular basis, such as the time line for the process, etc. Note that S.88 is now Act 128.

We are looking forward to receiving your proposals by 5:00 pm on Monday June 21. Again, electronic submission of pdf files is acceptable and should be sent to me as the contact person.
